

REPORT  
OF THE  
BOARD OF ADMINISTRATORS  
OF THE  
CHARITY HOSPITAL  
TO THE  
GENERAL ASSEMBLY OF THE  
STATE OF LOUISIANA

---

1915

---

NEW ORLEANS

THE  
**CHARITY HOSPITAL**  
 OF LOUISIANA

WAS FOUNDED IN THE YEAR 1786

BY

DON ANDRES ALMONASTER Y ROJAS,

To whose generous endowment, the munificence of the

LEGISLATURE OF THIS STATE,

and the liberality of the State of Pennsylvania, the community is indebted for the means of erecting this edifice, built in the year 1832.

His Excellency A. B. Roman, being Governor and Ex-Officio President of the Institution.

To record which and inscribe hereon the names and contributions of its distinguished benefactors

**THIS TABLET HAS BEEN ERECTED.**

# Annual Report of the Vice-President, FRANK B. HAYNE

To His Excellency Governor Luther E. Hall:

The income of the Hospital from all sources for maintenance during the year 1915 was:—

State Appropriations .....	\$258,897.18
Authorized fees, etc. (Subject to fluctuation) .....	41,441.10
Sundry Donations .....	4,543.09
C. H. I. F. ....	53,193.21
Isaac Delgado Trustees .....	3,841.09
Sundry Sources .....	529.18
	<hr/>
	\$362,444.85
Disbursements .....	\$329,347.47
Refund Loan—1914 .....	15,800.59
	<hr/>
	\$345,148.06
Surplus for Year .....	\$17,296.79

(Without C. H. I. F. deficit for year would have been \$20,095.83).

17,823 patients were admitted during the year and 900 remained in the Hospital December 31st, 1914, making the total treated, 18,723, an excess of 1,274 over 1914. The distribution of admissions was as follows:

White male adults, 5,074; white female adults, 3,117; white girls, 693; white boys, 1,013; total white admissions, 9,897. Colored male adults, 3,899; colored female adults, 3,312; colored girls, 319; colored boys, 396; total colored admissions, 7,926.

2,002 patients died during the year, 912 white and 1,090 colored, making a gross death-rate of 10.69%, and after deducting 421 deaths occurring within 36 hours, a net death rate of 8.4%.

Ambulance calls, 3,375—543 in excess of last year; accident cases treated, 16,677, an increase of 2,401 over 1914; operations in Miles Amphitheatre, 3,817; in Delgado Operating Rooms, 2,917, a total of 6,734.

34,012 patients applied for treatment in the Out-patient Clinics and 139,454 consultations were given there. 522 prescriptions were filled by the Optician and 79,515 by the Hospital Druggist. 2,156 treatments were given in the Dental Clinic; 10,844 examinations were made in the Pathological Département and 510 necropsies were held. In the Pasteur Division 223 patients were treated with no deaths. 18,044 histories were filed by the Registrar, a larger number than in any previous year.

The Training School for Nurses reports the graduation of 25 in 1915 and an enrollment of 86 pupils at the end of the year.

The report of Superintendent, Dr. C. D. Wilkins, is very full and enumerates the various improvements that have been made during the year,

and the report of the Treasurer, Mr. Matthews, will show that these items have cost in the neighborhood of \$30,000.00.

Dr. Wilkins' report, together with that of Mr. Matthews, the Treasurer, Dr. Duval of the Pathological Department, and the Chairman of the various committees, gives such full information regarding as to what has been accomplished in the Hospital during the year, that there is nothing more for me to add; the following tables, however, may prove interesting:

Year.	Admis- sions.	Surgical Operations.	Accident Cases.	Clinic Patients.	Per cent Deaths.	Cost of Main- tenance.
1909	9,576	3,208	9,922	17,443	12.6	\$203,047.00
1910	11,313	4,117	8,850	18,916	13.	204,707.00
1911	12,220	4,697	9,240	21,622	11.77	214,000.00
1912	12,893	4,603	11,106	23,203	11.75	231,527.00
1913	14,349	5,656	13,774	27,644	11.72	230,674.00
1914	16,742	6,786	14,278	30,547	10.6	297,286.00
1915	17,823	6,734	16,677	34,012	10.6	312,019.88

*Hospital.	Number of Beds.	Bed Days—Per Capita.
Bellevue Hospital .....	1,379	495,108 1.75
Louisville City Hospital .....	450	76,285 1.74
Boston City Hospital .....	995	196,688 1.81
Worcester City Hospital .....	.....	97,475 1.62
St. Louis City Hospital .....	1,000	256,830 1.13
St. Paul City Hospital .....	715	162,156 1.07
San Francisco City Hospital .....	700	110,555 1.07
Charity Hospital .....	1,074	327,632 0.86
Charity Hospital .....	1,099	Clinics—5-1/3c. 353,746 0.837
		Clinics—4-6/10c.

\*(Statistics for 1915 not available).

The above tables show that since 1909 the admissions to the Hospital have nearly doubled; that the Charity Hospital is being run on the cheapest per capita basis of any hospital approaching its size in the United States.

We are publishing in this report a list of those who contributed to making the Charity Hospital International Fair (C. H. I. F.) such an unprecedented success, in spite of the fact that the storm of September 29th so seriously interfered with it.

In the history of this City there never has been a movement made in the interest of charity that created anything like the enthusiasm of C. H. I. F. Some of the busiest and most successful men in all walks of life gave their time, money and energy. The rich, irrespective of politics or religion, contributed liberally, while what was even more appreciated was the fact that mechanics, carpenters and laborers gave their work free to the cause. Too much praise cannot be given the gentlemen whose untiring efforts made C. H. I. F. such a great success.

I think I am conservative in saying that fully \$15,000.00 worth of work was done simply as a contribution to the Institution.

Our thanks are also due to the New Orleans newspapers, who for once found a subject on which there was no difference of opinion. They all gave us their earnest support and did much for the ultimate success.

While the handsome sum of \$53,193.21 was raised, this is not as important as the realization that the citizens of Louisiana are proud of the Charity Hospital, appreciate the good work that is being done by it, and intend to see that this work shall continue to be carried on, and year by year to do more and more to alleviate the sufferings of the sick, who otherwise would be unable to receive proper attention.

The Board of Administrators cannot but help feeling that the wide-

spread interest in the Charity Hospital as demonstrated by C. H. I. F. is proof that the citizens of Louisiana have been satisfied with their management of the Hospital during the past four years, and therefore consider themselves well rewarded for the services they have rendered.

The Womens' Auxiliary, started this year for the purpose of aiding needy patients discharged from the Hospital, is undoubtedly one of the most important adjuncts of the Hospital, and it is wonderful that in such a short time they have been able to accomplish so much. The Board of Administrators wish to tender these ladies their sincere thanks and to express their appreciation for their noble work.

We owe sincere thanks to Sister Stanislaus and the Sisters of Charity for the noble service they have rendered and the earnest co-operation they have given our Board during the past year.

The Visiting Staff, on account of the increased number of patients, have had a most arduous year, and deserve the thanks of the Board and of the patients of the Hospital for their untiring devotion to their duties. Few Hospitals in this country command the services of men of such ability and standing in their profession.

The Internes, Nurses, and in fact the employees of every character, have faithfully carried out their duties during the year, and helped in every way to maintain the reputation of this great institution.

I wish to express my thanks to every member of the Board for their conscientious work during the year and consider that each one of them has a right to feel that he has done his full duty.

As this is the last report that our Board will make to you as Governor of the State, we wish to express our deep appreciation of the interest you have always taken in the Hospital, and the support that you have given our Administration.

During your term of office the Charity Hospital has been entirely out of politics. Not a single employee has been discharged or one appointed for political reasons, and it is the earnest hope of this Board that this policy be continued in the future.

I stated in my last report that after an experience of eighteen months, the Board was convinced that the management of the Hospital by an experienced executive officer, whose duties are purely administrative, was an absolute necessity, and now, after twelve months' further experience, we are more than ever convinced of that fact, and trust sincerely that the present system will be perpetuated, otherwise we will feel that our four years labor at the Hospital has been wasted.

Respectfully submitted,

FRANK B. HAYNE,

Vice-President, Board of Administrators.

## Report of Medical Committee

New Orleans, La., January 1st, 1916.

To the Vice-President and Board of Administrators of the Charity Hospital,  
New Orleans:

The year just ended has seen approximately the usual percentage of increase in the number of patients treated in the Hospital without a corresponding increase of appropriation for maintenance.

The "C.H.I.F." fund contributed by the generous and public spirited citizens of Louisiana has made it possible to continue the work and improvements outlined at the beginning of the year without incurring debt.

In 1915, 17,823 patients were admitted to the house and received medical care at a cost of 83 cents per patient. This very low per capita cost should not be a matter of congratulation for the proper care of patients would dictate the disbursement of an amount at least double. However, considering the resources at its disposal, the Hospital provided in a wonderful way for those admitted to its wards.

The Visiting Staff have shown unflagging interest and tireless energy in treating their patients.

The Internes have given evidence of a deeper sense of their responsibilities.

We have again to express our sincere admiration of the Sisters for their noble work of charity; and we most highly commend Sister Stanislaus for her intelligent administration of house affairs.

Much credit is due Dr. Wilkins for his unstinted efforts toward greater efficiency in all departments of the Hospital.

He has been ably seconded by Dr. Gallant, whose presence has proven quite an addition to the Hospital force.

A grand work has been undertaken by the Women's Auxilliary. Even during the short time which has elapsed since its establishment, social service has demonstrated its usefulness in our Hospital, and we must voice our highest praise of the ladies who are making such a success of this undertaking.

W. E. STAUFFER, Chairman.

CHARLES A. FARWELL,

FRANK B. HAYNE,

MEDICAL COMMITTEE.

## Report of House Committee

New Orleans, La., February 21st, 1916.

To the Vice President and Board of Administrators of the Charity Hospital,  
New Orleans:

Gentlemen—We beg to submit for your consideration the following report of the House Committee for the Year 1915:

During the year, plumbing of the Main Building was completed, the cost of which entirely exhausted the appropriation made by the Legislature in 1912, \$20,000.00.

Reference to the Superintendent's Report will show a number of physical improvements made during the past year, each of which demonstrates more economy and greater efficiency. The most notable is the Refrigerator Plant and Ice Storage Room. During the year 1915, 1,288 tons of ice was used, and in 1914, 1,434 tons; thus a saving of approximately 146 tons. During these two years the price of ice varied, ranging from \$2.00 to \$2.60 per ton, and it is fair to estimate a saving in dollars and cents of say, \$350.00. The Refrigerator Plant cost \$949.37 and the Ice Storage Room, \$140.42, and the efficiency of the former is better explained by reason of furnishing adequate cold storage room for all our meats, fruits, vegetables, butter and milk, which heretofore we had absolutely no facilities for taking care of. The Ice is now placed in the Ice Storage Room, but heretofore it was dumped out into the yard and called for by the different wards when needed.

Your Committee has several times called attention to the condition of our ambulances, and it is very necessary that at least one new motor ambulance be purchased, the present No. 2 mounted on a new chassis and the No. 3 overhauled, which will give us three motor, in addition to one horse ambulance.

Yours respectfully,

CHAS. A. FARWELL, Chairman.

ARSENE PERRILLIAT,

ORLOFF LAKE,

HOUSE COMMITTEE.

## Report of Finance Committee

New Orleans, La., February 21st, 1916.

To the Vice-President and Board of Administrators of the Charity Hospital,  
New Orleans:

Gentlemen—The accompanying statement of the Treasurer shows that the operating expenses of the Hospital for the year 1915, as compared with those of 1914, increased \$14,733.12. This increase may be attributed, in large part, to the higher price of commodities used by the Hospital caused by the present European War together with the increase in the number of patients admitted.

It was necessary during the year to encroach upon the Special Fund, which is derived from legacies and constitutes the Hospital's reserve, to the amount of \$14,500.00, but, thanks to the Charity Hospital International Fair (C. H. I. F.), which paid in the large sum of \$53,193.21, this impairment and that of the previous year, \$15,800.59, was made good and the Special Fund reinstated; in addition, current liabilities of the year 1914 to the amount of \$7,750.00 were discharged. The funds thus restored to the credit of this special account were, by authority of the Board, invested in Levee District and Municipal Bonds yielding a return of approximately five per cent per annum, a list of which bonds is given in the Treasurer's statement.

It is with gratitude that your Committee acknowledges the following cash receipts of the past year:

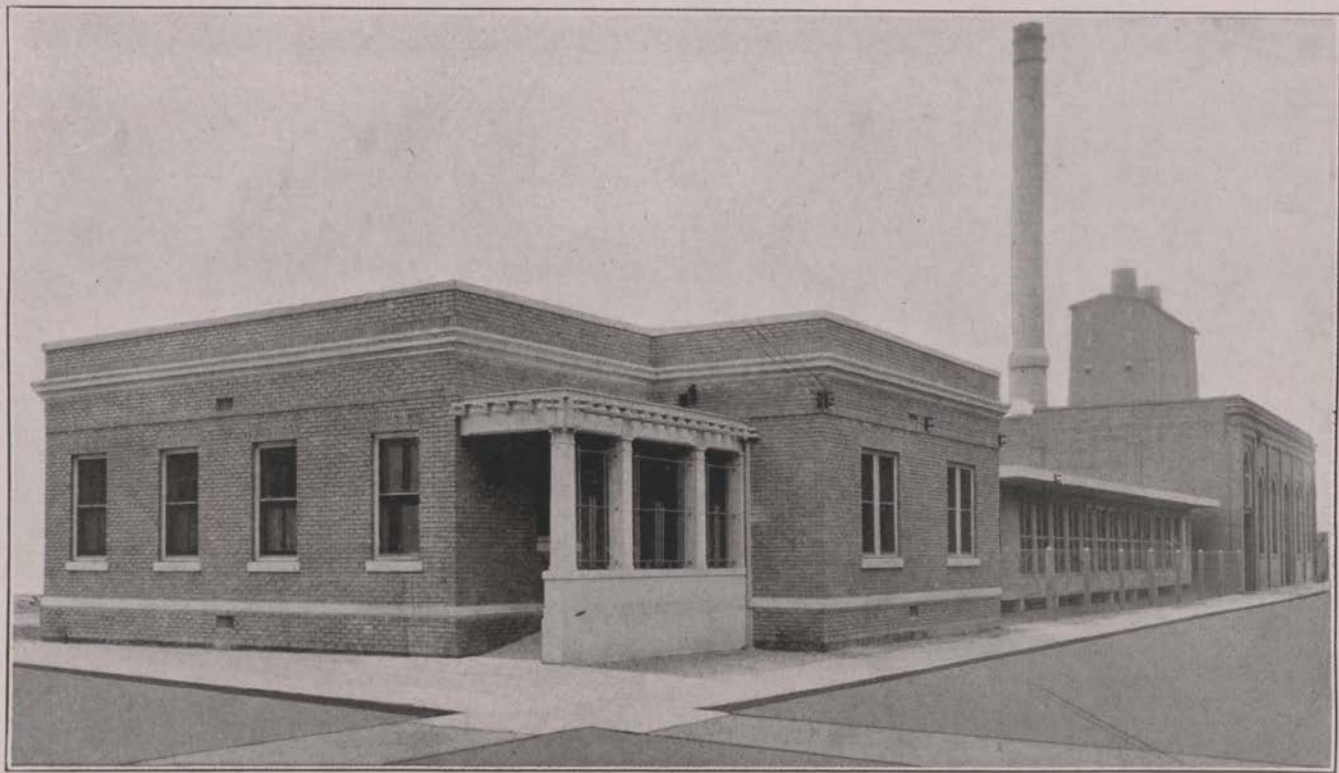

From the Trustees of the Endowment Fund of the late  
Isaac Delgado ..... \$3,841.09

### LEGACIES:

Mrs. Mary Gerstner .....	\$ 10.00
Mrs. Ida Richardson .....	500.00
W. N. Grunewald .....	200.00
Mrs. Caroline S. Tilton (Bonds Sold) .....	10,700.00
Mrs. Louis Schwarz (Bonds Sold) .....	13,675.50

### DONATIONS:

Joseph Rathborn .....	3,218.29
Frank L. Clarke, Plainfield, N. J. ....	250.00
Frank B. Williams .....	500.00

BREAUX MEMORIAL BUILDING AND TUBERCULOSIS WARD

---

Judge Jos. A. Breaux .....	6,000.00
W. R. Irby .....	5,000.00
Mrs. Deborah A. Milliken .....	335.67
From Sundry Persons .....	3,556.24

The Board of Administrators of the Hospital having already taken action expressive of its appreciation of the efforts of those responsible for the success of the Charity Hospital International Fair (C. H. I. F.), your Committee only wishes to say that but for the large amount received from this source, the Financial administration of the Hospital would have been seriously embarrassed.

Respectfully,

R. W. WILMOT, Chairman.

EDGAR B. STERN,

CHAS. I. DENECHAUD,

FINANCE COMMITTEE.

## Report of the Woman's Auxiliary

New Orleans, La., March 14th, 1916.

To the Board of Administrators of the Charity Hospital of Louisiana:

Gentlemen—A movement toward the founding of the Woman's Auxiliary to the Board of Administrators of the Charity Hospital of Louisiana was started in March, 1915. The object for which this movement was fostered was primarily to give aid to patients discharged from the Hospital and also to investigate "Home conditions."

The Officers elected were:

Mrs. Geo. Q. Whitney, President.

Mrs. Lucien E. Lyons, 1st Vice-President.

Mrs. H. M. Preston, 2nd Vice-President.

Miss Lucia Miltenberger, 3rd Vice-President.

Mrs. Maurice Stern, 4th Vice-President.

Miss Dorothy Wilmot, Recording Secretary.

Miss Eleonora Moss, Corresponding Secretary.

Miss Nellie Farwell, Treasurer.

Upon the resignation of Miss Moss, and later of Miss Wilmot, Mrs. S. M. D. Clark was elected Corresponding Secretary and Mrs. Randall Dugue Recording Secretary.

The Chairmen of Committees appointed were:

Finance Committee, Mrs. Maurice Stern.

Membership Committee, Mrs. A. Brittin.

Publicity Committee, Mrs. M. Feingold.

Social Service Committee, Miss Emma Glenney.

Employment Committee, Miss Margot Samuel.

Linen Committee, Mrs. Samuel Weis.

The Auxiliary is dependent for its revenue upon subscriptions, donations, and upon entertainments given for its benefit. The proceeds resulting from the last named source have made it possible to carry on the work. Below is appended the report of the Social Service Committee.

Respectfully submitted,

MRS. GEO. Q. WHITNEY, President,

Woman's Auxiliary.

## Report of the Social Service Committee

New Orleans, La., March 14th, 1916.

Ladies—Although the Auxiliary has been established for one year, the Social Service Department has been in operation for five months only. It was thought best to open this department on the 1st of October, chiefly because it seemed impossible to find a social worker with a medical training and a capacity for organization.

After a careful, but unsuccessful canvass of New Orleans, applications were made to many bureaus and hospitals, which failed in their result. Later, Miss Martha Pace of Virginia, a resident of New Orleans for one year, was secured. She is a graduate of St. Vincent's Hospital in Norfolk, has studied Public Health Nursing in New York under Miss Crandall, and she has had experience as Red Cross nurse in the mountains of Virginia. During the past summer, she devoted six weeks to the study of social service in the Massachusetts General Hospital of Boston, Mass., where she had the inestimable advantage of a close personal touch with Miss Cannon. Miss Pace is ably assisted by Miss May B. Collins, who for several years has given much time to the poor, in, as well as out of the Hospital. Owing to the many opportunities which cover the service of our department, it has been difficult to determine upon which we should concentrate. Believing that the most urgent need is in the Hospital, it has been decided to spend our energies with the patients in the wards following them into their homes. In the Home for Homeless Women, a woman and her child have been cared for. Through the hospitality of the Convalescent Home, St. Vincent's Hotel, and the Home for Homeless Men, eight men have found a temporary shelter, while twenty patients have been indefinitely lodged in St. Vincent's Asylum, Seventh Street Protestant Orphans' Home, House of Good Shepherd, Little Sisters of the Poor, Home for Incurables, the Soldiers Home, The Lafon Old Folks' Home for Colored People and the Baptist Faith Home for Colored People.

Transportation has been secured for twelve men, and four patients have been fitted with surgical appliances and so equipped for the work, which is to them, their daily bread. Clothing has been given. Without this help in some cases, employment would have been impossible.

Miss Margot Samuel, as Chairman of the Employment Committee, has before her the difficult task of finding suitable work for patients well enough to be discharged from the Hospital, but scarcely strong enough to bear the burden of a day's labor. Nineteen discharged patients have secured work through the efforts of her Committee.

131 cases have been dealt with during November, December, January

and February. 33 cases were open on the 1st of March; 480 ward visits have been paid and outside visits numbered 295; 89 letters have been written in the interest of patients. Through our social worker, a mother in Norway received news of her dying son.

It shall be our special interest to prevent the spread of infectious and of contagious diseases. We feel that we are very definitely saving the life of a ten year old girl, whose mother is in a far advanced stage of tuberculosis, and ignorant and careless of sanitary laws. The child was referred to the Anti-Tuberculosis League, and the disease discovered in its incipiency. She is now receiving treatment in Camp Hygeia. Through supervision of the mother, it is hoped to reduce the menace which her condition holds for the community.

I should like to express my thanks to the managers of the Institutions mentioned in this report, for their generous co-operation, and for this, also, am I grateful to the Charity Organization, to the Child Welfare Association, to the Sunshine Society, to St. Margarets' Daughters and to the Sisters in charge of the Hospital, also to individuals who have kindly contributed to the relief of patients.

We have disbursed for Salaries .....	\$600.00
For all other Expenses .....	125.96
Total .....	<u>\$725.96</u>

I cannot close my report without an expression of gratitude to Dr. Wilkins, for his sympathy with the work, and for his unfailing interest and wholesome advice. If our first efforts have been worth while, they have succeeded through his influence.

Respectfully submitted,

EMMA W. GLENNY, Chairman.

Social Service Committee.

## OFFICERS.

---

Mrs George Q. Whitney, .....	President.
Mrs. Lucien Lyons .....	1st Vice-President.

March 2nd, 1916.

To the President and Members Board of Administrators, Charity Hospital,  
New Orleans:

Gentlemen—This is to certify that this office made quarterly examinations of the books and accounts of the Charity Hospital, as kept by Secretary-Treasurer Fred. W. Matthews, for the calendar year 1915. These examinations proved that the cash receipts and expenditures of the General and all Special Funds during that year were as follows:

Balance on hand January 1, 1915 .....	\$ 9,391.74
Receipts, January 1, to December 31, 1915 .....	406,962.77

Total Balance and Receipts .....	\$416,354.51
Expenditures during same period .....	394,683.05

Balance December 31st, 1915 .....	\$ 21,671.46
Held by Secretary Matthews for Petty Cash Expenses .....	750.00
Held by Sister Stanislaus for Petty Cash Expenses .....	500.00

Total Cash Balance December 31, 1915 .....	\$ 22,921.46
--	--------------

I am pleased to state further that the balance of \$21,671.46 was on deposit in the several banks selected by the Board as depositories of the funds of the Charity Hospital.

Yours very truly,

W. N. McFARLAND,

Supervisor of Public Accounts.

Blanche, Little (Ward 61)	Shoe made to order.
Brennan, Oscar	Angel cake for patient.
Buras & Co., Jourdan J.	18 baskets crabs.
Buras & Co., Jourdan J.	2 bbls., crabs.
Burch, Mrs. Geo.	Clothing and hats.
Buger, Mrs., 1427 Soniat St.	Clothes and story books.
Bolivana School, Children of (Bolivar, La)	Box holly and mistletoe.
Chess, Checkers and Whist Club.	6 gals. ice cream and cake.
Chinese Republic Ass'n., 145 Elk Place	2 boxes tea.
Connell, Mrs. S. J., 739 Royal St.	3 chairs for children, pretty picture and story books.
Cross, Mrs.	Basket fruit.
Convent of Good Shepherd	Laundered 6 wogan loads clothes.
Conservation Commission	1 bbl. turtle, basket quail.
Conference of St. Vincent de Paul.	Distribution of reading matter and pictorials every Sunday.
David, Mrs., 5032 Prytania St.	Periodicals.
DeBuys, Mrs. L. R.	Second-hand clothing for children.
Doyle, Lawyer	Periodicals.
Dixie Laundry	Laundered 4 loads clothes.
Dempsey, Dr. Geo.	Sack soft shell crabs.
Dempsey, Dr. Geo.	2 baskets soft shell crabs.
Delucia, Joseph, French Market.	Bunch bananas.
DeRoss, Myra	\$5.00 for children.
Fabacher, Lawrence	Keg of beer semi-weekly.
Favrot & Livaudais, Architects	Services re-constructing, re-modelling and repairing laundry.
Feahney, Mrs. Chas.	Turkey for patients, ward 72.
Frisco Terminal Co.	Half rate on ticket to Oklahoma City, Okla; half rate on ticket to Basile, Texas.
Frank, W., 1029 Robert Street	22-lb. turkey.
Farwell, Miss Nellie	Toys for Christmas tree to amount of \$72.25.
Fung, Charles	Cakes and jar preserves.
Friend, A	3 dozen drinking glasses.
Friend, A	\$1.00 for children, Ward 62.
Frank, W.	30-lb. pig.
Friend of Patients in Ward 13	Copy Daily States for 1 year.
Firemen's Convention Entertainment.	65 loaves bread and milk.

Gardener, Dr. C. A., Sun, La.	\$5.00 for children in Ward 62.
Gabut, Miss	Assorted nuts.
Game Commission (Mr. Alberta)	Barrel turtles.
Groetsch, Mrs. Julius	100 handsome dressed dolls, 100 assorted toys.
Grunewald Laundry	Laundered 4 wagon loads clothes.
Gorman, Dr. J. A.	4-ton ice machine.
Hayne, F. B.	Quantity of magazines.
Helucion, Leon, Ponchatoula, La.	Crate strawberries.
Hussy, Mrs. P.	50 yards 8/4 pepp. sheeting.
Hussy, Mr. and Mrs. J.	54 yards 8/4 pepp. sheeting.
Holderith, Dr. Chas.	Handsome refrigerator, Ward 53.
Ipser, Jos., 8138 Cohn St.	6 night shirts.
Ipser, Hampden, 8138 Cohn St.	7 dress shirts.
Illinois Central R. R. Co.	1/2 rate on ticket to Crystal Springs.
Irvine, Mrs. J., Bayou Sara, La.	Toys and books for children.
Johnson, Charles, Ponchatoula, La.	Crate strawberries.
Jones, Dr. Hamilton P.	Pair crutches.
Kilburn, Mrs. Chas., Clinton, La.	3 pieces infant clothing.
Kaufman, Mrs. Harry, 1633 Dufossat Street	Doll house completely furnished and two large dolls.
Lang, Mrs. H. L.	Periodicals.
Lamanda, Tony	Large bunch bananas.
LaValliere Co.	3 dozen Anti-Heat Talcum Powder.
Little Sisters of the Poor	Combination invalid chair.
Lonzetta, Mr.	Bunch bananas for Ward 48.
Leede, Severan, Opelousas, La.	Sack yams, pecans and corn.
Louisville & Nashville R. R. Co., (Freight Sheds)	2 barrels apples, 3 crates cabbages.
Loyal Order Moose	63 loaves bread, bunch bananas, 5 gallons milk.
Lee, Louisia, Burtville, La.	Sack sweet potatoes.
Lynch, Mrs. T.	Carriage free when needed.
Menzie, Mrs., Cleveland Play Ground	Magazines.
Magruder, Mrs. J. P., 1516 Amelia St.	Tank of oxygen.
Maes, Dr. U.	1 Pelvimeter, 1 Tornier Axis Traction Forceps, 1 Elliott Forceps, 1 Low Forceps, French Pattern, 1 Brauns' Cranioclast, 1 Boers Craniotomy Forceps, 1 Brauns' Decapitating Hooks and 1 Perforator.
Mente & Co.	Cost repairing roof and other storm damage Shippers Press property.
Meddon, Mrs. H.	Sack sweet potatoes.
Mills & Co., 935 Poydras St.	1 barrel tenderloin trout.
Moose Boosters	Carton cakes and 1 gallon ice cream.
Morrison, J., Texas	Basket choice fruit.
Moore, Mrs. M. D.	Cut flowers for patients.
Morgan, Enoch Sons Co., N. Y. City	1 case hand Sapolio.
McCahill, Wm., Wadesboro, La.	Hamper sweet pepper, 3 hampers lettuce.
McGehee's Institute, Hammond, La.	Box fresh cut flowers.
New Orleans & Northeastern R. R. Co.	1/2 rate on ticket to Angie, La.

National Oil Works .....	1 barrel Autorene Lubricating Oil.
Odenwald, Mrs. Joe., 2200 Canal St.....	Books and periodicals.
Pitri, Eugene .....	Bunch bananas.
Parker-Blake Co., Ltd. ....	36, 1-pound cans Brooks Baby Barley.
Puncky, Chas. & Bro. ....	Marble tablet, Breau-Tubercular Building.
Querens, Mrs., City .....	6 jars assorted preserves.
Ramos, Chas. E. ....	Quantity magazines.
Rollins, Mrs., 714 N. Rampart St.....	Baby crib.
St. Margaret's Daughters (Through Mrs. Lusher) .....	Large box mixed cakes.
St. Margaret's Daughters .....	Easter eggs and rabbits for children.
St. Margaret's Daughters .....	Box special mixed cakes, 6 gallons ice cream.
St. Margaret's Daughters .....	½ box mixed cakes, 3 gallons ice cream.
St. Margaret's Daughters .....	6 gallons ice cream, 1 box special cakes.
St. Margaret's Daughters .....	20 pounds candy, box cakes, dolls and toys for children.
Schleider, Fred. ....	Pair crutches.
Southern Pacific R. R. Co. ....	½ rate on ticket to Jeanerette, La., ½ rate on 2 tickets to Beaumont, Texas.
Sangeron, George, 8136 Cohn St.....	Shirts for little boys.
Singer Sewing Machine Co. ....	2 sewing machines.
Stauffer, Wm. E. ....	Victrola for Nurses Home; toys for children, value \$32.15; 2 dozen special screen hinges.
Sherman, Miss .....	Easter eggs and rabbits for 125 children.
Tarleton, Mrs., 1661 Octavia St.....	Tricycle for boys.
Texas & Pacific R. R. Co. ....	½ rate fare to Texas for patient. ½ rate fare to Alexandria, La. ½ rate fare to Refugio, Texas. ½ rate fare to Alexandria, La. ½ rate fare to Choctaw, La.
Tupper, Allen .....	Half proceeds sale of a piano.
United Fruit Co. ....	4 broilers for Chinamen. 10 lbs. red snapper for Chinamen. 3 chickens for Chinamen. 5½ lbs. red snapper for Chinamen. 12 tins assorted soups. 6 dozen eggs. 3 chickens, 10 pounds. 3 chickens, 8 pounds. 10 pounds red fish. Wagon load of bananas weekly.
Vacarro Bros. Fruit Co. ....	Wagon load of bananas weekly.
Vittur, Harry .....	6 large fish.
Weis, Mrs. Sam .....	2 electric motors.
Wilkins, Dr. C. D. ....	No. 17 Sanitary flat top desk for Sisters office, Drinking fountain in Main Hall.
Womens' Auxilliary (Through Mrs. G. W. Whitney) .....	12 gallons ice cream.

---

Wright, Mrs. J. M. ....	1 gallon ice cream.
	2 pounds cakes and box eggs.
	1 gallon ice cream and 2 pounds assorted cakes.
	2 gallons wine.
	4 boxes strawberries.
Yan Chou .....	6 cans preserves.
	Sack of nuts.
	2 bottles wine.
	10 pounds black tea.
Yee Wah Yen & Co. ....	4 boxes tea.
Young, Mrs., 1660 Benjamin .....	Periodicals.

## Superintendent's Report

To the Board of Administrators, Charity Hospital, New Orleans, Louisiana:  
Gentlemen—Herewith I submit to you my report for 1915:

### BED CAPACITY OF HOSPITAL.

White Male .....	332
Colored Male .....	200
White Female .....	270
Colored Female .....	166
Children .....	131
Total .....	1,099

### GENERAL SURGICAL.

	White	Colored	Total
Number beds .....	228	132	360

### GENERAL MEDICAL.

Number beds .....	210	125	335
-------------------	-----	-----	-----

### GYNECOLOGY.

Teeth filled .....	389	205
Surgical Cases treated .....	18	22

## Training School for Nurses—

Graduates .....	38	33	25
-----------------	----	----	----

The percentage of increase in admissions is somewhat less than for the past two years, being 9% plus for the year. 17,823 patients were admitted to the House and 900 remained on January 1st, making 18,723 treated during the year.

These patients were given 353,746 days treatment at a total maintenance expense of \$312,019.88, making the daily per capita cost 83-7/10 cents. The estimated cost of the out-patient is \$15,959.45. Patients treated in this department, 34,012; number of treatments given, 139,454, giving a cost of 4-6/10 cents per patient, 1-1/10 cents per treatment.

Charging all expenses, out-patient department, new plumbing, new equipment, extraordinary repairs, etc., to the care of the patients, will make the per capita cost \$1.01 plus. In no other large hospital whose report has been received, is there any such low cost reported.

3,465 more patients were admitted to the out-patient department than last year and 11,895 more visits by patients made to this department.

2,399 more accidents were treated than last year, a total of 16,677.

The ambulances responded to 3,375 calls, 543 more than last year. Your attention is called to the present condition of the ambulances. Ambulance No. 3 has been in continual service for over five years, with almost no repairs, and no general overhauling has been done for three years. Ambulance No. 2, purchased second-hand, is worn out and requires constant attention to keep it running. This machine has been in service three years and has amply repaid the small amount invested in it.

Of the 18,723 patients treated during the year, 2,002 died, making the gross death rate 10.69%, the same as last year, but a considerable decrease from previous years. Of the total number of patients dying in the Hospital, 421, or a little over 21% died within 36 hours after admission.

The Pathological Department has greatly increased the volume of work done. The report from that department showing the increase, is to be found in another portion of the report, but special mention may be made of the following:

## Bacteriology and Serology:

1912—1502 Examinations; 1915—7,691 Examinations.

## Surgical Tissues:

1912— 22 Examinations; 1915—1,349 Examinations.

1912—152 Autopsies; 1915—510 Autopsies.

The department has also prepared and delivered 8,655 doses of anti-tetanic serum, and has 4,000 in stock at the close of the year. As this serum has a market value of about one dollar a dose, and the cost here has been less than one-quarter of that sum, it is readily seen that a large amount has been saved.

June 1st the plan of having a salaried X-Ray operator was adopted and put into effect. The Treasurer's report shows that the expenses of the department were \$648.51 less than last year, and members of the Staff have expressed satisfaction with the efficiency of the work done. Dr. Granger remains as consultant in the Roentgen Ray Department and is available for advice and consultation at any time. A special room has been

equipped for treatment with the X-Ray; Dr. Samuels, acting as consultant and supervising this branch of the X-Ray work.

Beginning July 1st an agreement was entered into with N. Bellamore, Optician, by which he agreed to have a competent optician at the Hospital Out-patient Department, to take prescriptions and fit glasses, under direction of the Visiting Ophthalmological Staff. A definite schedule of prices was made, which allows the patients to obtain all necessary glasses at a low cost, and assures them having just what the oculist has prescribed.

The formation of the Women's Auxiliary to the Board of Administrators has been a very important development of the year. That the women of the community should form an organization for the purpose of assisting the Board by "Aiding the Patients who are discharged from the Hospital" should be a source of pride and gratification to you.

The Women's Board at once took measures to raise funds, and in a short time were in a position to engage a Social Service Work to act as their agent in carrying out plans for assisting the patients. Your special attention is called to their report, and I wish to express my own appreciation of the splendid work which has been done in the short time now elapsed.

In her report, the Directress of Nurses calls attention to the need of more nurses to adequately care for the large number of patients now being treated in the Institution.

The number of Pupil Nurses should be increased to at least 125, and the number of Graduates remain as at present; some arrangement for the accomodation of this large increase, as the present home will care for 110 nurses.

It can be readily understood that 110 nurses assigned for day and night duty to 77 wards, 2 suites of operating rooms and 20 out clinics, cannot possibly give the personal attention to the patient that is desirable.

Your attention is especially called to this problem, which is perhaps the most urgent of any in the Hospital at the present time.

### IMPROVEMENTS AND REPAIRS.

In the report of 1913, a list of the urgent physical needs for the Hospital were given as follows:

1. Dormitories and dining rooms for help.
2. New laundry equipment.
3. Refrigerating plant.
4. New room and equipment for X-Ray department.
5. New equipment for Pathological Department.
6. Wards for Tubercular Cases.
7. Isolation rooms on each floor for seriously sick patients.

It is a pleasure to report that at the close of 1915, the first five of these requirements have been met, and the last two have been supplied in part.

During 1914, the Pathological Department, X-Ray Department, the Laundry, some dormitories for employees and part of the wards for contagious diseases were completed. At the close of 1915, the employees are all removed from the wards, one special ward for tuberculosis is completed and isolation rooms are in use in the Milliken and White Women's Buildings.

It should be noted in this connection that beyond the appropriation of \$20,000 in 1910 for plumbing, no special appropriation has been made by the State for new work or repairs, all of the funds used having been from donations, legacies and from special funds remaining in the Hospital treasury in 1912.

The Treasurer's report shows in detail the sources from which these funds have been derived, and it is impossible to express too often how much

the Hospital owes to the generosity of those who have contributed to the welfare of the Institution.

#### EMPLOYERS' DINING ROOMS AND DORMITORIES.

All white employees have dining room accomodation, the rooms in the Milliken basement and in the kitchen building now furnishing sufficient space.

Since July, and for the first time in the history of the present Hospital, all white employees have been provided with sleeping accommodations outside of the wards.

The building directly across the street, owned by St. Joseph's Church, and for the past year or more used by Hotel Dieu for its nurses, was leased by the Hospital. The equipment installed there by Hotel Dieu, was purchased at a very low figure and this building now comfortably houses forty-three of our women employees. This building, in addition to the rooms over the Laundry, now cares for all of our white women employees and frees the beds formerly used by them for the patient's use.

#### REFRIGERATING PLANT.

The old brick cistern foundation by the kitchen, which had been roofed over, making a room in which a refrigerator and water tank for milk cans were kept, was made into two cold storage rooms. The floor level was brought up to that of the main kitchen, cork board insulation used, refrigerator doors put in place, etc.

Lack of funds did not allow of the installation of a refrigerating machine, but the ice loft was planned so that expansion coils could be placed in position with the least possible trouble. Mr. Chas. Rantz assisted in the plans of these rooms and helped materially to make them the success which they have been. At "C. H. I. F." he donated a four ton ice machine, which was raffled and won by Dr. J. A. Gorman, who promptly donated it to the Hospital. Plans are now under way to install this machine before the warm weather arrives.

Along with the construction of this plant, a storage for the ice used daily in the wards, was constructed in one end of the Howard Street store rooms.

The daily supply of ice is now left in this room and distributed to the wards by a man who uses a specially constructed cart for the purpose. Both of these rooms have proved entirely satisfactory, and fruits, berries, meats, and milk have been kept in good condition for days, when before, they spoiled in a few hours. With all this additional cold storage, you will note that the cost of ice is \$211.00 less than last year.

#### TUBERCULAR WARDS.

The lot on Gravier Street was finally agreed upon as the best location, and after considerable discussion, the plan of having a central building for toilets, baths, storage, dining rooms, diet kitchen, etc., and long narrow, one-story wards were accepted.

The central building was built of brick, one story in height, but with a sufficient foundation and walls to carry a second story if needed. The problem of building sanitary, fire-proof, and at the same time cheap ward buildings was more difficult.

Mr. Favrot, the Architect for the central building finally proposed using steel lumber covered with concrete, as offering the best construction for the purpose.

One ward has now been completed and Judge Breaux has again shown his interest and generosity by offering to bear the whole expense of the erection of a second ward.

These two wards will give us 26 beds and should furnish accommodation for all the white men, and allow of their removal from the wards in the general Hospital.

There is ample space on the grounds to erect wards for white women, colored men and women, and from the interest taken in this part of the Hospital work, it seems probable that gifts for this specific purpose will soon be sufficient to build and equip these wards.

### ISOLATION ROOMS.

Removal of the women employees from the small rooms adjoining wards in the White Women's Building, has made these rooms available for use as isolation rooms for seriously sick patients, and the same holds true in the Milliken Building.

### OTHER IMPROVEMENTS AND REPAIRS.

The concrete floors in the kitchen building were completed and all rooms of lower floor painted. The screening of all galleries of this floor was finished and screened-in shed on the east side extended to end of building.

The toilets in the Main Building were completed early in the year. The track was extended around the end of the kitchen to the east entrance to laundry.

The ward formerly known as No. 9 was converted into a plaster room and dressing room for wards 7, 8 and 10. All necessary equipment was installed, a zinc floor covering laid at one end of the plaster room, and linoleum over the remainder of the floor.

Upon the completion of the laundry, the rooms under ward 48 became available for use as part of the contagious department. Partitions were erected, toilets and baths installed, giving a small department of five rooms and 11 beds. Since their preparation, no infectious disease has been allowed to remain in the general wards of the Hospital. Though not ideal, this department has been able to safely care for the group of infectious diseases assigned to it without the dangers heretofore attendant upon their presence in the Hospital.

Inclines have been built to the East and West ends of the Main Building, to the end of the gallery of the Colored Women's Building and from that building to the White Women's Building. This last incline has a double slope beside the building as well as to the gallery. With the completion of these inclines, all of the lower floors are, so to speak, on the same level, in that a roller may go to all of the buildings without being lifted up steps.

Kitchen sinks have been placed in all diet kitchens in the White Women's Building, a much needed improvement since previously water had to be drawn and emptied in the toilet rooms of each floor.

The Miles Amphitheatre was screened entirely, full length hinged wood framed copper wire screens being placed over all openings which are used. These screens were not renewals, but are the first permanent screens for this most important department.

The entire gallery of the upper floor of the Colored Female Department was screened and roller awnings fitted to one-half. A number of patients may sleep on this gallery when crowded conditions in the wards require it.

The toilet and bath room by ward 43, which was in a condition hard to describe, was dismantled, the rotting floor removed; a tile floor was laid

after filling from the ground level, new water closets, lavatory and clinic sink installed.

The double house on Villere Street owned by the Hospital, had no sewer connections and did not have the proper foundation to comply with City Ordinances. Water closets, sinks and bath tubs were installed, and a brick chain wall built under the House. The old privies were cleaned, filled, and the whole premises made to comply with the City Ordinances.

The Records, formerly kept in an upper room in the Male Clinic Building, were removed to the end rooms of the Clerk's Office Building. One room was prepared for a stack room and the other for use as the Registrar's office. A door was cut through the Clerk's office so that now all the Hospital books and records are on the same floor and easily accessible. The Skin Clinic has been assigned to the room vacated by the Registrar, and the front room on the lower floor fitted out as the office of the Social Service Department.

Age and the dampness accentuated by the concrete gallery floor, caused the floor of the Admitting Room to become unsafe and demand repair. This space was filled, necessary pipe trenches made and a tile floor laid. A re-arrangement of the furniture was made and this room now is an attractive one and gives a good impression to patients as they enter the Hospital. The demands upon the accident room have become so great that the small room in the Amphitheatre has become overcrowded and efficient work cannot be done. With a view of eliminating this condition, and freeing the Amphitheatre of some of its burden, two changes have been decided upon: First, to remove the Drug Department to ward No. 6, then to utilize the old drug room for the accident service. The wood floor of ward No. 6 has been removed and a cement floor laid with necessary pipe trenches and traps to the trenches. Shelves on walls and in the room have been built and this room will soon be ready for use.

The storm of September 29th did great damage to roofs, windows, gutters, etc., and has caused the expenditure of large sums for repairs. All of the slate roofs suffered severely and when repairs were started, it was found that the nails in the slates left in place were rusted so that large areas had to be removed beyond those blown off by the wind. The materials for repairs were hard to get, because of the unusual demand, as was also labor. However, temporary repairs were made and as material and labor could be had, permanent work has been done. All work has been done by Hospital employees or by day labor under the Engineer's direction.

Your attention was directed in last year's report to the condition of the walls in the older buildings and the need of paint to make these wards clean and more pleasing to the eye. It is impossible to believe that pleasant surroundings for the patient has no influence upon the physical condition, and grimy whitewashed walls are not conducive to cheerful thoughts.

By your direction, the work of painting these old buildings was begun on the top floor of the White Women's Building and at the end of the year the men who had been laid off were recalled and the work was resumed.

The Delgado Memorial Building walls had become badly soiled and in many places paint in the halls had peeled or become worn. Since the Hospital has been left a fund for the care of this building, it seemed best to carry out the wishes expressed in the deed of gift and put all parts of the building in repair. All ward walls were washed and touched up when necessary. The whole upper floor and all halls were repainted, a faint gray tinted paint being used.

To give some idea of the amount of painting and other work on the walls, the following partial list is appended:

- Scraping walls, 9,500 sq. yards.
- Washing walls, 250 sq. yards.
- Whitewashing, 4,000 sq. yards.
- Ward beds painted and enameled, 206.
- Ward tables painted and enameled, 183.
- Painting one coat on walls, 63,340 sq. yards.

Minor improvements in numerous places have been made through the year and repairs have been made as occasion demanded. The entire plant has been kept up or perhaps improved, so that at the end of the year the physical condition of the whole Institution is better than a year ago.

### FUTURE IMPROVEMENTS.

There should be in a Hospital of this size and character a general outline for future improvements that the demands of new methods of treatment as well as increasing numbers may be met.

I beg to present to your attention the following:

A building to be situated in vacant lot of ground between the Nurses Home and ward 48, the lower floor of this building to be used for the main kitchen and all necessary dining rooms for officers, nurses and employees; above, adequate accommodations for the Sisters. I strongly urge that this lot of land be kept for the purpose mentioned.

An extension of the Nurses Home toward Tulane Avenue, to provide sufficient rooms for the Nurses required in the Hospital.

Fireproofing of the Main Building, and the addition of a fourth story with flat roof. When this is done, all patients should be removed from the first floor and this floor used for the following:

Business offices, Staff rooms, X-Ray Department, hydro-therapeutic department, zander room, plaster room, patients' receiving and bathing rooms, and other rooms as the progress of medical science shall demand.

Available land on Tulane Avenue should be acquired on which to erect an out-patient building to accommodate all clinics and be modern in all its appointments.

A cottage on Tulane Avenue beyond the Milliken for Officer's quarters.

A complete re-arrangement of the interior of the Miles Amphitheatre.

I desire again to express to your Board my appreciation of the valuable help given by its members in the adjustment of the many problems which arise in an Institution of this character.

The members of the Visiting Staff, who have given greater attention to their duties, as greater responsibilities have been laid upon them, and the House and Interne Staffs, I commend to you for thanks.

To Sister Stanislaus I owe a personal debt of gratitude for her ever-ready help and co-operation in all efforts to increase the efficiency of the Hospital; and to the Sisters and Nurses who have worked to this end, I express my appreciation.

Through the year the true Hospital spirit has become more in evidence and pride of service has become manifest among all who are employed here.

Respectfully submitted,

C. D. WILKINS, M. D.,

Superintendent.

DRUG ROOM

## Report of Directress of Nurses

- To the Honorable Board of Administrators of the Charity Hospital, New Orleans, Louisiana:

When we consider the number of our sick, we are brought face to face with the very old question of the small number of Nurses at our command.

Those who have an intelligent and unprejudiced idea of the work a school ought to do and the way in which it should be done, will marvel when they consider that the entire working force, including day and night service and all allied departments, are controlled by so small a personnel. There is much need of forceful exposure of this point, as we sometimes see a lack of appreciation of the indispensable service rendered by the pupil body.

There will always be a wide variation of opinion as what constitutes ideal nursing service. Our object is to equip our Nurses with a theoretical and practical knowledge to meet the activities imposed by modern progress. Every school has its own spirit; no two schools can be alike, since each is influenced by the individuality and enthusiasm of the teacher, and facilities for teaching; provided general principles are kept prominently in view there may be a wide variation of method.

Excepting the occasional disruption inseparable from an institution of this kind, the school is fulfilling its function with an average degree of efficiency. Our interpretation of this is derived from comparing and contrasting national and local standards. This comparison truly reflects inherent imperfections, but these we hope time will eliminate.

When we consider and measure the thousands of men and women who are controlled and cared for, the labor and service rendered by the Training School will be recognized as an important public service. The practical contemplations of facts will disclose the amount of work achieved with the capacities at command; the records of the past need not be disinterested. Under the stress of increasing work we can only meet the claims of direct and urgent needs. It is only the absolute shortage of the human as well as the financial products that limits our responsiveness to elaborate demands. We are so absorbed in the perfection of technical ends, we fail to recognize the amount of labor and thought demanded and given to the more palpable and humaner phases of our work; the moral and physical nudity, the hunger and thirst of the poor.

To the casual observer the residence building appears imposing and convenient, but many comforts and even necessities are deficient. We cannot refrain from commenting on the equipment of the Nurses Homes in

other State Institutions. Our civic pride and a laudable ambition prompts us to measure up to the higher and newer demands in Hospital and Training School Department.

The Training School completes its twenty-second year; 480 Nurses have graduated since its inauguration in 1894. The graduating class of 1916 numbers 13. The Staff and Pupils in the Training School at present are, Directress, Superintendent, Assistant Superintendent, Instructor of Probationers, Night Supervisor, Assistant Night Supervisor, Supervisor of Residence, Graduates in various departments, 25; pupils, 86; number of applications received, 260; accepted on probation, 58; retained as pupils, 38; released, 40; resigned, 10.

General health of the Nurses during past year has been excellent; only 420 days have been lost by illness, I regret to report that Tuberculosis has claimed 3 victims from our ranks, otherwise the illnesses have been insignificant.

#### GRADUATES IN 1915.

Ollie Aycock, Louisiana,	Winona Chauvin, Louisiana,
Minnie Gariepy, Michigan,	Corinne Graner, Louisiana,
Mary Reaves, Georgia,	Celine Rateau, Louisiana,
Hettie Brossette, Louisiana,	Berta Barthe, Louisiana,
Dolores Shaeffer, Louisiana,	Viola Donlon, Louisiana,
Nancy Tate, Mississippi,	Nezzie Delaney, Louisiana,
Elizabeth Finnigan, Louisiana,	Beatrice Laiche, Louisiana,
Francis Fabing, Louisiana.	

I present to the Board the following requisitions:

The screening of the entire building; painting of the whole interior; installment of a new lighting and heating system; supply of furniture and rugs for Nurses rooms; awnings for the windows on west side, and other minor improvements. I also strenuously recommend a new location for the Nurses Infirmary.

I avail myself of this occasion to thank the Board for former courtesies and support. The responsibility of the formal training of Nurses which the Lecturing and Visiting Staffs so generously shared, elicits our sincere gratitude.

#### TRAINING SCHOOL STAFF.

SISTER STANISLAUS, R. N., Directress of Nurses.  
 SISTER MARTHA, R. N., Superintendent of Nurses.  
 SISTER WALBURGA, R. N., Asst. Superintendent of Nurses.

Directress of Nurses.

## Pathological Department

Dr. C. D. Wilkins, Superintendent, Charity Hospital, New Orleans, La.:

Sir:

In submitting to you the annual report of the Pathological Department for the year 1915, it is a pleasure to me to record further development in its several divisions. With the high record established in 1914, it seemed hardly probable that an increase in the amount of work done could be made without a corresponding increase in the Staff and additional room space. Since the past year has been the first spent under thorough organization, it may be well to compare the amount and character of work done during this period with that prior to 1913.

In assuming charge of the Pathological Department in January 1914 I saw at once the possibility of its development from the large amount of material constantly at hand. With a cosmopolitan population drawn from all parts of the world, its central location and direct communication with all foreign countries, New Orleans offers exceptional opportunities for the study of a large variety of diseases, and the Pathological laboratory of the Charity Hospital is by far the best place for this study. But, to carry on the work satisfactorily, it was necessary to first establish in the department a thorough organization supported with diligent work and rigid discipline. Through the liberality of Mr. Rathborne and with your co-operation, this has been made possible and the results speak for themselves.

A comparative statement of work done during the years 1912, 1913, 1914 and 1915 is herewith submitted.

### DIVISION OF CLINICAL MICROSCOPY.

1912.	1913.	1914.	1915.
13,323	13,736	931	1,804

### DIVISION OF BACTERIOLOGY AND SEROLOGY.

1912.	1913.	1914.	1915.
1,502	3,699	5,956	7,691

### DIVISION OF SURGICAL PATHOLOGY.

(Tissue from operating rooms.)

1912.	1913.	1914.	1915.
222	474	817	1,349

## PASTEUR DIVISION.

	1912.	1913.	1914.	1915.
Patients applied .....	1,075	1,151	975	859
Treated .....	342	252	353	223
Animals examined for rabies .....	6	70	150	153

## DIVISION OF PATHOLOGICAL ANATOMY.

	1912.	1913.	1914.	1915.
Autopsies held .....	152	223	453	510

The decrease in the number of examinations in the Division of Clinical Microscopy is explained by the fact that these have been made by the Interne Staff since January 1914, so that the number charged to this division during the years 1914 and 1915 represent for the most part, specimens from the out-clinics.

The Pasteur Division shows also a decrease in the number of applicants for advice and of treatments given. The reason for this is found principally in the establishments of clinics for anti-rabic vaccinations in adjoining States, and because of a better understanding by the people of the value of observing animals that have inflicted injury. The increase in number of animal examination for rabies, from 6 in 1912 to 153 in 1915, accounts for the decrease in the number of treatments given, as vaccinations are administered only when the brain examination confirms the suspicion of rabies, or when the animal is not obtained.

The new method of preparing and administering anti-rabic vaccination continues to give excellent results. Since its first use in 1913, 675 persons have been vaccinated against hydrophobia without a single fatal result—a record never attained here or elsewhere with the old Pasteur method of protection. The shorter time necessary to protect the patients, its absolute reliability and the decreased cost in the preparation of the vaccine make this method a very valuable one to the patient and to the Institution. During the past year treatments have been sold to veterinarians throughout the State, to protect valuable animals against the bite of rabid ones. It is possible that at little expense, the attention of others may be called to the fact that the department is prepared to furnish this vaccine at a nominal cost for the immunization of animals, and a mutual benefit to the owner and to the Hospital would result.

In the Divisions of Bacteriology, Serology, Surgical Pathology, and Pathological Anatomy, very substantial gains can be recorded over that of 1914, and a still larger increase over 1912. The number of tissues examined from the operating rooms compares at present more favorably with those of other institutions. Your co-operation was asked in my last yearly report to increase if possible, the number of examinations in this division, and the results of your efforts are apparent; the increase over the year 1912 being nearly tenfold. The number of autopsies held during the past year will equal and probably surpass that of any single institution in this country. The value of post-mortem studies is well known to all clinicians, and can only reflect good to the community at large. It is by this means only that accurate medical knowledge can be gained.

The manufacture of protective and curative sera against tetanus and diphtheria undertaken by the department, continues to progress satisfactorily. During 6 months of 1914, 1,951 doses of antitetanic serum were prepared and distributed for use in the Hospital. The total production for the year 1915 has been over 14,000 doses. 8,655 doses were used during this term and

4,000 remained in stock on December 31st for the coming year. Comparing its cost of production with its price upon the open market, the saving to the institution by the manufacture of this product has been over 75%.

The department has also distributed 833 doses of antidiphtheritic serum. Pending the manufacture of this serum by the Department, this product has been purchased from other sources at a great saving to the Hospital from the original price paid.

In addition to these sera, the Department has prepared and distributed during the year 128 doses of antigonococcal bacterin, 168 doses of typhoid bacterin, 62 doses of normal horse serum and 12 full treatments of *Bacillus Bulgaricus*.

The Department has encouraged research studies by the Staff, and the results have been very satisfactory with the limited means at hand. Studies upon blastomycosis, bubonic plague, amoebae, serum reactions and diphtheria and several "case reports" have been published and others are in press at the present time. It is hoped that with the coming year, funds will be available to compile these studies into one volume for distribution to institutions as "Collected Studies from the Pathological Department of the New Orleans Charity Hospital."

The present laboratory space and autopsy room is still a matter of some concern. the space for records, stock and the storing of valuable pathological material remains a problem which will have to be solved in the near future. Your consideration of this matter is respectfully solicited with a view of bettering conditions when funds are available.

It is with regret that I report a change in the personnel of the Staff during the past year. The resignation of Dr. H. W. Wade, Resident Assistant Pathologist, in November, to accept a more lucrative position in the Government service in the Philippines, created a vacancy which was indeed difficult to fill. His efficient work and understanding of the duties of his office made him a very valuable member of the Staff. With your approval, Dr. G. B. Adams has been appointed to fill the position. Dr. Adams came to us highly recommended, and his value to the Department has already been established.

Respectfully submitted,

CHAS. W. DUVAL, M. D.,

Director.

## Report of Dental Clinic

New Orleans, La., January 31, 1916.

To the Board of Administrators of Charity Hospital:

As Chief of the Free Dental Clinic of your Hospital, I beg to submit the following report for the year of 1915:

The members of the visiting staff of the Dental Department accomplished as follows:

Extractions .....	925
Treatments .....	410
Fillings .....	205
Surgical cases, including fractures, removal of carious bone and cysts.....	22

A great many more patients were attended in the wards, but unfortunately no record was kept of the same.

The Committee wishes to bring to the notice of the Board that the attendance of the Visiting Staff for the year was very poor as a whole and therefore reduced the good that might otherwise have been accomplished, and begs to be excused for the laxity shown by its members to the negligent members of the Visiting Staff on account of the newness of the undertaking.

We have of late eliminated a great many of the Visiting Staff for their negligence, and at present have a very good attending staff.

The Committee wishes to bring forcibly before the Board the fact that we have expended both time and money to make a success of this long felt want in your Hospital, and before we can accomplish this end, we must have the support and co-operation of the entire hospital force.

We believe that our profession plays a very important part in the proper diagnosis and successful treatment of a great many ailments brought to the notice of those connected with the Charity Hospital, and we feel that we should be recognized as a department of your great institution just the same as any other branch of medicine and that all ailments that come under our department should be referred to it; which we are sorry to say has not been done up to the present time.

The Committee also recommends that we give more attention in the future to the patients of the various wards which are so often sorely in need of dental attention; that we eliminate the treatment of teeth of patients of the out-door clinic and only do the work that will alleviate suffering.

Since the dentists of New Orleans have furnished the funds for the original equipment and also given their valuable time to the clinic, the Committee would ask the Board to appropriate a sufficient sum to replenish instruments and materials that might be needed to accomplish the work in the future.

Respectfully submitted,

J. P. WAHL, D. D. S.,

Chief Dental Staff.

## Roentgen Ray Department

New Orleans, La., December 31st, 1915.

Dr. C. D. Wilkins, Superintendent, Charity Hospital, City:

Dear Sir:

As Roentgenologist, I take pleasure in submitting for consideration the following report; the data given represents six months work in the department:

My permanent appointment as your Hospital Resident Roentgenologist went into effect on June 1st, 1915.

It is an indisputable fact that the thoroughly equipped X-Ray laboratory of to-day is of vital importance as an adjunct to medical science, and it may not be out of place here to call attention to a few things accomplished within the months covered by this report.

In the way of improvements, the Department was repainted and altered during the summer. On machine instead of two, as heretofore used, was found adequate, as well as economical for doing radiographic work. This was accomplished by changing the position of the machine and a few alterations in wiring.

An ingenious water cooling box, designed by Dr. Wilkins, was constructed in the dark room for taking care of plates in hot weather. This addition has been greatly appreciated, since previously there was much annoyance and loss in plates and in plate definition, due to high temperatures in the wash water.

The office and demonstration room is now so equipped and appointed, that members of the Visiting and House Staffs may at opportune times visit and study radiographs, and if necessary, consult the Roentgenologist as to interpretations.

Report blanks have been enlarged to conform to size of patients' history charts, insuring uniformity and allowing of more accurate description, as sketches of fractures, etc. The filing system for exposed plates has been revised and simplified, and records are cared for by the cross index card system.

While the radiographic work as a whole has been satisfactory, especially in bone conditions, such as fractures, etc., it is yet far from scientific, when dealing with pathological lesions of the mobile organs, as found within the thorax and abdomen. This, however, is not due to faulty technique, but to the inefficiency of our present apparatus. The machine is of small calibre in electro-motive potentiality, belonging to the early type, and cannot com-

pare with the modern machine. It cannot deliver the necessary "radiographic snap," so important to success in getting sharp definition of moving organs, as lungs, heart, stomach or intestines.

Last, but far from least, the fleuroscopic end suffers from this cause, plus inadequate protective devices to protect the operator. Attention is again directed to the saving in purchases of plates and tubes, as shown by Secretary-Treasurer's report. No new tubes have been bought, seven old ones having been repaired.

The services of a graduate paid nurse has been dispensed with a pupil nurse from the wards rendering assistance when required.

The following is a tabulated record of the six months' work:

Number of total exposures made .....	2,516
Number of total plates made .....	1,981
Number of patients examined .....	1,686
Number of Parts Examined—	
Skull and Bones of Face .....	134
Thorax .....	193
Upper Extremities .....	440
Lower Extremities .....	551
Spinal Column .....	122
Gastro-Intestinal Tract .....	126
Genito-Urinary Tract .....	108
Abdomen and Pelvis .....	46
Cases treated by X-Rays .....	522
Photographs of Patients .....	40

Strict economy, plus efficiency, has been the endeavor of this Department.

Respectfully submitted,

JAS. B. HARNEY, M. D.,

Roentgenologist.

## Out-Patient Department

Dr. C. D. Wilkins, Superintendent:

Perhaps in no other department has more gratifying results been obtained than has been accomplished in the past year in the Out-patient Clinics. A comparison of the figures for the year ending December 31st, 1915 with that of the previous year, viz., 1914, shows an increase in practically all of the individual clinics, and of special mention in this regard is the increase in new patients treated in the Medical, Genito-Urinary, Dermatological and Gynecological Clinics; there has also been an increase in the number of patients applying for treatment in the Eye, Ear, Nose and Throat Clinics.

During the past year efforts have been made to bring our Out-door Clinics to the higher standard of efficiency, realizing as we do, the service which these clinics afford the suffering poor, and further, the economical value to the State. Patients successfully treated in the Clinics, are able to continue uninterruptedly their occupations, thereby reducing admissions to the Hospital.

Improvements have been made from time to time in both the Male and Polyclinic Buildings to provide better facilities for the convenience of patients and the Visiting Staff. Recently the old Wassermann laboratory being inaccessible, a special room for taking specimens for the Wassermann Test was equipped, and an office has been furnished for the Social Service Department. New and standard sets of instruments have been supplied to meet the particular requirements of the Clinics, and I believe it could be safely asserted that the many hundreds of patients daily treated in these Clinics, are given as close individual medical attention and handled with as great despatch as in any other Hospital of this capacity.

To anticipate any possible embarrassment to those applying for treatment in the Out-door Clinics, who might be considered non-charitable cases by the Clinic Staff, or those cases which might come under the Workmen's Compensation Act, a system has been devised by which all such cases are now referred by a card direct to the Superintendent's office, and in this way a more satisfactory and systematic disposition is made of such non-hospital cases.

The total yearly figures are interesting for comparison, indicating the increase of patients treated during the past year over the year preceding.

### Year 1914.

All Clinics—	
White .....	14,699
Colored .....	15,848
Total .....	30,547

### Year 1915.

All Clinics—	
White .....	15,599
Colored .....	17,413
Total .....	34,012

In conclusion I wish to acknowledge our appreciation and extend thanks to the members of the Clinic Staff for their loyal support and almost perfect record of attendance to their individual clinics, and for the many sugges-

tions given by them. The co-operation of Sisters Dominica and Cecilia, and the supervising Nurses in these Clinics is also acknowledged.

Below is submitted a list of figures of the Out-patient Clinics for the year ending December 31st, 1915, which is self explanatory:

SUMMARY OF OBSTETRICAL CASES DELIVERED IN THE HOSPITAL  
IN 1915, AS PER HISTORIES FILED IN  
RECORD ROOM.

There were 617 Obstetrical cases delivered in the Hospital in 1915, exclusive of Miscarriages and Abortions, as follows:

White .....	247	Primiparae .....	294
Colored .....	370	Multiparae .....	323
Presentations.		Positions.	
Vertex.....	{	Left Occipito-anterior .....	358
		Right Occipito-anterior .....	139
		Right Occipito-posterior .....	1
		Left Occipito-posterior .....	1
Breech .....			19
Hand .....			2
Foot .....			9
Transverse .....			5
Placenta Praevia .....			4
Not determined .....			79

MANNER OF DELIVERY.

Naturally .....	572
By Forceps .....	19
By Podalic Version .....	14
By Caesarian Section .....	12

There were eight cases of twin pregnancy.

MORTALITY OF MOTHERS.

Of the 617 maternity cases delivered in the Hospital, eleven died, a mortality of only 1.6 per cent.

CAUSES OF DEATH.

Rupture of Uterus .....	1
Eclampsia .....	6
Placenta Praevia .....	3
Septicaemia (admitted in labor, with a difficult presentation) .....	1
	11
The number of children born was 625—Male.....	339
Female .....	286—Total, 625
Delivered living .....	544
Stillborn .....	81— 625

**COPY RESOLUTION, PAGE 79 MINUTE BOOK, C. H.****Special Meeting of Board of Administrators, August 25th, 1915.**

WHEREAS, The Charity Hospital of Louisiana is in urgent need of funds, in order to maintain the treatment of its patients on the same standard which has prevailed in the past,

RESOLVED, That the Board of Administrators of the Charity Hospital of Louisiana invoke the aid of the public of all the entire State in raising a sum of money adequate to its needs, by means of the Charity Hospital International Fair, which it has prevailed on a number of prominent citizens to undertake in its behalf.

**COPY RESOLUTION, PAGE 84 MINUTE BOOK, C. H.****Meeting, Board of Administrators, September 20th, 1915.**

Whereas, The increase in attendance both at the clinics and in the wards of the Charity Hospital, as well as the advanced cost of food, housekeeping and medical supplies, also surgical apparatus and instruments, has caused the expenditure of a greater sum for the maintenance of this Institution therefore, be it

RESOLVED, That the Board of Administrators heartily appreciate the zeal and self-sacrifice displayed by many of our public spirited and charitably inclined citizens in contributing to the welfare of the CHARITY HOSPITAL INTERNATIONAL FAIR. We express our sincere thanks to Hon. Harold W. Newman and his associates, to the Press and those connected with this movement, for their indefatigable endeavor in the cause of humanity.

**COPY RESOLUTION, PAGE 88 MINUTE BOOK, C. H.****Meeting, Board of Administrators, October 18th, 1915.**

Whereas, The Board of Administrators have not as yet learned the sum total realized as a consequence of the C.H.I.F., owing to the task imposed upon those engaged in marshalling these moneys. We, however, at this time, desire to formally and publicly acknowledge our gratitude to all who in anywise contributed toward the great endeavor for this cause of charity and which culminated in such a magnificent success, notwithstanding the most adverse circumstances. It is therefore,

RESOLVED, That this Board, for itself and in behalf of the large number of Louisianians who are compelled through circumstances to use this Hospital, extends its sincere appreciation and thanks to all of the organizations, fraternal and otherwise; to those of our fellowmen engaged in the trades and in manual labor, and to the men and women of our State, who rendered unto C.H.I.F. of their time, their labor and their financial support.

## REPORT.

New Orleans, December 10th, 1915.

Honorable Harold W. Newman, General Chairman,  
Charity Hospital International Fair,  
City.

Dear Sir:

In accordance with our offer, we have compiled a detailed statement of receipts and disbursements of the Charity Hospital International Fair, this statement embracing all cash donations, and subscriptions made prior to and since the Fair, as well as a complete statement of receipts during the Fair which was held on October 3rd—11th, inclusive, full particulars of which may be found on Exhibit "A," supported by Schedules "1" to "4."

It will be noted that the entire gross receipts from all sources amounted to \$60,092.56, this being more fully set forth on Exhibit "A," a summary of which follows.

## SUMMARY.

Net proceeds of Fair .....	\$20,379.44
Subscriptions to C. H. I. F. ....	30,629.96
Admission Tickets sold .....	6,534.89
Miscellaneous .....	2,548.27
<b>Total .....</b>	<b>\$60,092.56</b>

Net Proceeds of Fair, \$20,379.44. Full details of this amount may be found on Schedule "1." In compiling these figures, we took into account all amounts turned in for specific nights, endeavoring in each instance to apply the aforesaid amount to the particular night in question.

We give below a summary of the Fair receipts, according to the relative results of each night:

## SUMMARY OF FAIR RECEIPTS.

<b>Night.</b>	
American .....	\$ 5,748.08
Irish .....	2,844.92
Italian .....	2,550.10
German .....	2,440.45
Fraternal .....	1,955.34
French .....	1,860.74
Labor .....	1,600.41
English .....	1,294.15
Colored .....	654.31
Children (Matinee) .....	452.42
	<b>\$21,400.92</b>
Less C.H.I.F. certificates, etc. ....	1,021.48
<b>Total receipts .....</b>	<b>\$20,379.44</b>

A further examination of Schedule "1" will disclose the fact that receipts from the several villages and larger booths were as follows:

German Village, \$2,866.92; French and Belgian Villages, \$2,517.49; Italian Village, \$1,560.56; Touro Infirmary Booth, \$1,494.81; W. O. W. and Woodmen Circle, \$1,273.65; Elks Cabaret, \$1,140.25 (Elks Flag, \$229.85 additional); Rotary Club, \$673.79; Turkish Cafe, \$909.41; Labor Booth, \$786.74; Petit Cheveaux (Mrs. Stern), \$507.75; King Solomon's Temple, \$459.10; Irish Village, \$445.09; Ulster, \$297.57; Toyland, \$519.61; Federation (Mrs. E. J. Graham), \$343.30; Contractors and Dealers Exchange, \$365.53; Oriental Booth (Mrs. C. E. Wermuth), \$328.26; Grunewald Caters, \$255.37; Consumers Biscuit Co., \$168.57; Junior Sunshiners, \$163.08; Knights of Columbus, \$369.68; Y. M. G. C., \$136.50; Loyal Order of Moose, \$105.10; Druids, \$121.65;

W. R. Irby Branch, \$87.65; Algiers Booth (Mrs. Huckins), \$136.69; Amersville, \$63.46; Suffrage (Miss J. Powell), \$39.35; Mrs. B. C. Casanas (Fraternal Night), \$37.55; Karo Syrup, \$31.56.

The results from Monte Carlo show that while \$1,191.10, was received in cash, \$787.00 worth of CHIF certificates were issued and redeemed at the other booths, leaving a net difference in cash to the credit of the booth of \$404.10.

It will be noted also that \$234.48 worth of merchandise was exchanged between the various booths, each booth supplying the other getting credit for goods furnished. This amount added to amount of CHIF certificates circulated will give \$1,021.48 which was the amount used as a deduction from the gross proceeds.

Subscriptions \$30,629.96. Full particulars as far as was possible are furnished in Exhibit "A" supported by Schedule "2." Our inability to furnish in type form list of names of individual donors is due to the fact same covers over sixty pages of a large size cash book, altho, should this information be wanted at any time reference to this book can be had.

We separated as far as possible subscriptions from merchants, stores, factories, professional men, etc., and included in country donation, may be found donations from public spirited men in the names of several towns as for instance Covington, Kenner, etc. On Schedule "2" will be found a complete list of subscriptions from police Juries. It will be noted that the Illinois Central and Texas and Pacific were the only two railroads that subscribed, outside of the New Orleans Railway and Light Company whose subscriptions amounted to \$100.00.

The steamship lines subscribed liberally as well as did some of the manufacturing interests. Several of the Canal Street department stores subscribed an amount in merchandise in addition to their cash donations.

Among the larger individual donors we might mention the names of Mrs. John Dibert, Mr. Frank B. Williams, Mrs. Milliken and H. T. Cottam. As all donations were acknowledged thru the local press, we do not deem it necessary to mention any more names here.

On Exhibit "A" under the head of disbursements, we show the amount of money expended prior to, during, and since the Fair. This was segregated as much as possible. Schedules "3" and "4" support purchases made during the Fair and salaries paid, respectively.

We wish to advise that while we reconciled the bank accounts, and had the pass books balanced, we did not vouch all purchases, but merely compiled Schedule "3" from the face of the books; however, we have every reason to believe that the liabilities outstanding at present are nominal, if any.

It affords us much pleasure to report that the accounting details were carried out in splendid form, the more so when we realize that your Vice-Chairman of the Finance Committee, Mr. Julius Goldman, supervised this work without compensation.

We wish to extend thanks to yourself, Mr. Weinburger, Mr. J. C. Cremer, Mr. Stier, Mr. Goldman and others for courtesies extended our staff during the progress of the Fair, and since, and trusting the report herewith submitted may prove of value to you, and holding ourselves in readiness to serve you further, should you desire any more information, I am,

Yours very truly,

H. DASPIT,

Certified Public Accountant.

**SUPPLEMENTARY STATEMENT OF RECEIPTS AND DISBURSEMENTS  
OF CHARITY HOSPITAL INTERNATIONAL FAIR.**

As at March 18th, 1916.

New Orleans, March 18th, 1916.

Honorable Harold W. Newman, General Chairman,  
Charity Hospital International Fair,  
City.

Dear Sir:

We are attaching hereto a supplementary statement of receipts and disbursements of the Charity Hospital International Fair covering receipts and disbursements since our report of December 10th, 1915, and up to and including March 18th, 1916.

It will be noticed that net proceeds of the Fair turned over to the Charity Hospital amounted to \$55,015.32, this being made up of the following amounts:

Check No. 137 November 15, 1915 .....	\$52,666.69
Check No. 152 January 6, 1916 .....	1,389.52
Check No. 153 March 13, 1916 .....	479.46
Check Conrad Kolb, account German Village .....	479.65
<b>Total .....</b>	<b>\$55,015.32</b>

As details of the above mentioned additional receipts and disbursements are shown fully on statement hereto attached, we do not deem it necessary to make any further comment here.

Holding ourselves in readiness to furnish any additional information you may desire, I am,

Yours very truly,  
H. DASPIT,  
Certified Public Accountant.
